

Exposed cold rolled slitting and inspection coming to Gibraltar in January. *Ferrolux Metals is moving...*

For the past 18 years Ferrolux Metals has been serving customers from the company's Detroit facility but will be moving to a new location in Gibraltar, Michigan this December. Ferrolux will be at full commercial production in the new location the first of January.

Ferrolux is joining sister division, HyCAL Corp. in the newly renovated and expanded 540,000 square foot Gibraltar facility. Ferrolux and HyCAL Corp. are both Ferragon companies.

Ferrolux is a world-class provider of toll slitting and inspection for cold rolled steel destined for surface critical applications such as automotive exterior body panels. The company operates two slitting/inspection lines to produce precise, edge trimmed, defect free coils in a wide range of gauges. Every inch of every coil is inspected to assure flawless surface quality and painted finishes.

Ferrolux is ISO/TS 16949:2009 certified and dedicated to superior quality, as evidenced by an invisible claim rate of .014% on over a million tons.

If your cold rolled product is destined for automotive or other surface-critical applications, Ferrolux can give you toll slitting and inspection that is unmatched.
