

HyCAL Corp. achieves ISO 9001:2015 Certification

HyCAL Corp. is proud to announce that the company has earned the ISO 9001:2015 Management System certificate for its flat rolled steel operations in Gibraltar, Michigan. The certificate was awarded by SRI Quality System Registrar for HyCAL's batch annealing, continuous annealing, and warehousing services.

The HyCAL facility includes:

- A revolutionary hydrogen continuous annealing line that provides the automotive industry with unrivaled AHSS/UHSS and 3rd Gen steels
- 17 Ebner hydrogen batch annealing bases
- A 2-high temper mill
- Temperature and humidity monitored warehouse

Ed Gonzalez, president stated, "We are pleased that HyCAL Corp. has demonstrated effective implementation of our management system and has been awarded the ISO 9001:2015 certification. It provides evidence to our customers, suppliers, employees, and the community that HyCAL is committed to producing a quality product and providing customer satisfaction."

ISO 9001:2015 is process-based; certification recognizes organizations that can link business objectives with operating effectiveness. Companies that achieve management system certification to ISO 9001:2015 have demonstrated effective implementation of documentation and records management, top management's commitment to their customers, establishment of clear policy, good planning and implementation, good resource management, efficient process control, measurement and analysis. Continual improvement has been institutionalized.
